Experience

Quality Assurance Intern

Legacy Interactives, Los Angeles, California

Summer 2013 June to August

- Regularly found glitches, bugs, and errors in various types of games including: puzzles, point and click adventures, and a temple run simulation.
- Logged and recorded every bug or error for reference for the staff in the workplace
- Pointed out areas of improvement for the artists and coders.
- Learned about the dynamic between testers and the rest of the staff in the company as a bridge between the player and the designers.

Social Intern

FAD.IO, Santa Monica, CA

Summer 2012 June to August

- Helped in making a social commerce website called Fad.IO.
- Created news and blogs in order to generate traffic for the website.
- Compiled contact information and possible resources for the company to make use of.
- Learned the practice of a general startup company, including the interaction between an investor and a company
- Found and logged bugs and errors on the website in order to insure the best possible experience for the user base.

Event Staff Member

Summers 2008-2011

InterCp, San Jose, CA

- Planned and organized 7 to 8 big events with an audience focused approach.
- Trained ~10 new volunteers and staff members on duties including: conference room setup, people and crowd flow, room preparation, vendor and booth management, preparing and shipping event materials, and welcoming registrants.
- Managed IT and media positions for movies, slideshows, and editing.

Skills

- Comfortable with both MAC and PC.
- Intermediate proficiency with Microsoft Word, Excel, Powerpoint.
- Basic proficiency with programming programs like Java, C++, and HTML.
- Basic experience of building computers.
- Basic proficiency with maintaining computers over remote desktop.
- Experience in using Elementool for logging bugs
